## Objective

---

Highly motivated and quick learner with a strong passion for web development and technology. Skilled in problem-solving and logical thinking, with a focus on building efficient, user-friendly, and innovative web applications.

## Projects

---

**Takeitout-Real time chat Application** | React.js, Express.js, MongoDB, Node.js, Socket.io.

- Developed a real-time chat application using React.js, Node.js, Express.js, and MongoDB, enabling seamless communication between users.
- Implemented Socket.IO for real-time bidirectional communication, ensuring instant message delivery and live user status updates.
- Designed responsive and intuitive frontend UI with React, focusing on user experience and efficient state management.
- Built RESTful APIs and integrated MongoDB for secure data storage of messages and user information, ensuring scalability and performance.

**BlogZap – AI-Integrated Blogging Platform** | React.js, Express.js, Node.js, MongoDB, Google Gemini API.

- Developed a full-stack blogging platform where users can write blogs manually or auto-generate complete blog posts using AI by just providing a title.
- Integrated Google Gemini API to generate high-quality blog content with minimal input.
- Implemented an admin dashboard that allows admins to post blogs and manage user comments.
- Built secure and scalable backend APIs with Node.js and Express.js, managing blogs, users, and AI services.
- Designed a modern and responsive frontend with React.js, enhancing usability for readers and writers.
- Utilized MongoDB for efficient storage and retrieval of blog posts, user data, and comments.

## Education

---

Graphic Era Hill University University - B.Tech   Computer Science Engineering	July 2022-Jun 2025
Govt. Polytechnic Kashipur - Diploma   Electronics Engineering	July 2019-Jun 2022
Chhauni children's Academy(CBSE)- Class 12th (Senior Secondary)	July 2018-Jun 2019
Chhauni children's Academy(CBSE)- Class 10 (High School)	July 2016-Jun 2017

## Technologies

---

**Languages:** C++, SQL

**Databases:** MongoDB, Postgres.

**Web Technologies:** HTML5, CSS3, Javascript, Express.js, Node.js.

**Version Control System and tools:** Git, Github, Postman.

**Devops and Cloud:** Docker, AWS.

## Certifications

---

- 0-100 Full Stack Web development Course-100xdevs
- SQL-Udemy

## Hobbies and Interest

---

- Enjoying Casual gaming and listening music.
- Exploring how websites and apps are built.
